Target Banding Rates for Older People in Care Homes 2015-16
Spot Placement Arrangements

- The Target Banding Rates shown below apply to new admissions and new funding of Older People, including threshold funding, change of care home and changes resulting from revised care needs assessments.
- We use these rates to secure a care home placement at a funding level as close to the Target Banding Rate as possible.
- Within the process there is flexibility to fund above the Target Banding Rate should meeting a person's assessed needs require additional funding.
- We also pay above the Target Banding Rate where there is no alternative and we urgently need to find suitable accommodation that will meet someone's care needs.
- All of these fee rates, except Continuing Care, include the residents' assessed contributions where appropriate.

Service	Care Band	Target Banding Rate
Residential Care Home (Care without nursing)	**Social Care - Extensive / Specialist**	**£473**
Nursing Care Home (Care with nursing)	**Social Care - Extensive**	**£584**
	Social Care - Specialist	**£656**
NB: The figures quoted above include the single rate Funded Nursing Care (FNC) and Incontinence Payments		

Continuing Health Care	Case by Case
