

Oxfordshire Way Map 24 —Beckley to Waterperry I (Beckley to Woodperry-Horton-cum-Studley road)

Approximately 1.7 miles (2.7 km)

TL= Turn Left FL = Fork Left BL = Bear Left
 TR = Turn Right FR = Fork Right BR = Bear Right

1 Walk past the Abingdon Arms pub on your left and take the left hand road fork. When the road bends sharply by thatched cottages, take the steep shady track straight ahead.

2 After about 200 yards when you see a waymark post on your left, leave the track left into a field, cutting of the right corner of the field to a stile. Continue straight ahead through the next field to another stile and carry straight on across a third field to drop down steeply to a copse.

3 At the bottom of the slope a stile leads on to a little woodland path running along the left bank of a stream. Cross plank bridge and emerge on to a lane. Cross the lane, go through gate and go straight on across the next field to a gate.

4 Bear slightly right across next field to a gate and then **BR** again across the next large field, aiming for where the telegraph wires cross the next hedge. Continue across next small field to a small plank bridge to the right of the main field gateway.

5 Follow left hedge across next field to gate. Then **BR** across final field to metal kissing gate onto road.
