Methodology:
The visual assessment is based on a grading of degrees of visibility of the Development Site, including the area proposed for built development and the area proposed for green infrastructure:

1. Open view: a clear view of a significant proportion of the site within the wider landscape.
2. Partial view: a clear view of part of the site, partial view of it, or a distant view in which the site forms a relatively small proportion of the wider view.
3. Glimpse: a transient view or a distant view of the site in the context of the wider landscape.
4. No view: no view, or difficult to perceive.
